ANATOLE KRASNYANSKY

Anatole Krasnyansky, was a prominent architect and watercolorist when he left the U.S.S.R. for the United States in 1975, where he found fertile ground for his aesthetic growth. Krasnyansky's traditional cityscapes, much admired in Europe, have grown richer, freer and more expressive; and in recent years he has evolved a second, wholly new style with which to render the experience and ideas of his new life in the United States. Krasnyansky's awareness of the interdependence of architecture, sculptures, painting and applied art, and his knowledge of these diverse disciplines have shaped his career and found expression in his art. Through experimentation Krasnyansky has developed his own artistic method, one that has freed him from the constraints of traditional watercolor techniques.The artist's innovative inclusion of paper texture into the creative process is a dynamic component of his art, resulting in an expansion of the medium's potential. Krasnyansky is one of the first artists to elevate the watercolor medium to the expressive possibilities usually associated with oil painting

LEE WENG FATT

Lee Weng Fatt was born in 1967. He received his diploma in Art and Design from Kuala Lumpur College of Art in 1987. Lee's primary subjects are old heritage buildings at which he had lived or played.

He has an affinity for old buildings that he has lovingly documented over the last thirty years. For the artist, any old building will do; in fact, the older the better, because it means the building has "lived' and he is able to have a conversation with it. The building has a past, it has a character, and Lee is the building whisperer, teasing out the stories from its inscrutable facade for our pleasure. We take in the facades of shophouses, people milling about a medicine shop, an old vintage car, birds, bird cages and the sunlight filtering through the open space.

It is the artist's untold admiration for these buildings that enables him to capture their souls, imbuing them with a timelessness that goes beyond their actual chronological age. He is interested in capturing the mood of a scene rather than the physical details of the subject matter. The artist has transformed his subjects into ethereal "beings" worthy of inspiring awe and reverence. The buildings take on a life of their own. In most of his works, there is the ubiquitous birdcage, a solitary bird or a flock of birds which signifies human habitation

HANDRIO

Born in Bandung, March 18, 1921. He started to paint since 1935 with Kelompok Lima Bandung. He studied painting from Jos Pluimentz and Luigi Nobili. He also studied the model drawing in Academia Grande de la Chaumiere (Paris) and the Academy of Fine Art Amsterdam in 1957. He received a Handrio was born in 1926 in Purwakarta. He started his painting career by studying with Basuki Abdullah. Furthermore, during the Japanese period, he studied with Sudjojono and Agus Djaja at Keimin Bunka Shidoso and Poetera in Jakarta. At first, Handrio's paintings were in the style of realism and Surrealism. In the 1950s Handrio has shifted to a semi-abstract style, which is analytically HANDRIO breaking down shapes in the geometric plane. This style was a different expression from the Yogyakarta painters at that time who generally painted populist themes from realism to expressionism and decorative styles. In this semi-abstract style, he analyzes many forms of still life objects and musical instruments. In its development in the late 1960s, these forms disappeared into dynamic and complex geometric spaces. The peak of Handrio's abstract style achievement occurred in the 1980s. The space, field, and color in his paintings represent the characterization of the construction of the elements themselves. In this expression, what is present is dynamics, rhythm, complexity, robustness, balance, or other images wards from Jaarmarktprijss Surabaya, Keimin Bunka Shidoso Jakarta, Barisan Propaganda Jabar, Culturele Stichting Samenwerking Nederland Indonesia (Holland).
